

TENDER SPECIFICATION

We take architectural glass a step ahead.

OKAWOOD Insulating Glass with Timber Insert

Outer pane

type of glass toughened or heat strengthened
thickness of glass according to static requirements

Cavity

air space 18mm with wooden interlayer type "Dark Red Meranti"

Inner pane

type of glass toughened or heat strengthened with low-E coating #3
thickness of glass according to static requirements

Technical data upon as required:

total solar transmittance/ solar heat gain coefficient	%
Ug-value	W/m ² K
light transmission	%
number of units
dimensions widthcm x height cm
height of installation above sea level
